AUTOMATING EMPLOYEE DATA

1. IDEATION PHASE

1.2 Empathy Map Canvas

User: HR Administrator / Data Manager

Says:

- Updating employee data takes too much time.
- Generating reports is difficult and a struggle.
- The data is sometimes incorrect or inconsistent.

Thinks:

- It would be great to have a system that reduces manual work.
- Life would be much easier if data updated automatically.

Does:

- Maintains records in multiple Excel files.
- Manually enters all employee details.
- Cross-checks data across different systems to ensure accuracy.

Feels:

- Overloaded with work.
- Frustrated due to frequent data errors.
- Stressed whenever it’s time to prepare reports.

SAYS:

- ✓ Updating employee data takes too much time.
- ✓ Generating reports is difficult and a struggle.
- ✓ The data is sometimes incorrect or inconsistent.

DOES:
